Mother Nature invites herself to the "3-6-6 Day" celebrations

Shediac, NB - Due to forecasted weather conditions on February 29, 2024, the Town of Shediac must move the "3-6-6 Day" celebrations to the municipality's Multipurpose Centre.

Significant amounts of rain and strong winds are expected over southeastern New Brunswick on February 29, 2024. In addition, a rapid cooling is also expected during the evening, which could result in poorer conditions. To ensure the safety of participants, the Town of Shediac is therefore forced to change the evening's programming, moving the "3-6-6 Day" festivities to the parking lot and inside the Multifunctional Centre from 6 pm to 8 pm.

To find out all about this evening of leap day festivities, visit www.experienceshediac.ca.
